3.

Subject: Annual Renewal of Cloud Student Email, Backup & Recovery

[Policy 4:60 Purchasing and Contracts](#)

Administration has reviewed a proposal from Gaggle for our annual cloud student email, backup and recovery, and human monitoring services. Gaggle provides a filtered email experience for students and complies with the Children’s Internet Protection Act. The Human Monitoring Service (HMS) puts the monitoring of student emails in Gaggle’s hands eliminating the need for teachers to review questionable communications so they can concentrate on classroom instruction.

When an email is flagged by the HMS team, it gets forwarded to an administrator at the appropriate school for review and/or follow up.

This solution is intended to provide protection from bullying, drug use, threats of school violence, teen depression, suicidal intentions, and abusive domestic situations.

Item	Purpose	Quantity	Unit Cost	Cost
Gaggle Safety Management for Google Email/Drive	Email/Drive Services for Students	7,910	\$5.00	\$39,550.00
Gaggle Safety Management For Microsoft OneDrive - Students	Monitoring of Microsoft OneDrive Content	7,910	\$0.00	\$ 0.00
			Grand Total:	\$39,550.00

Net Budget Impact:

Within ITS budget

Committee Recommendation:

To be determined

Administration Recommendation:

Administration recommends that the Board of Education approve the annual renewal for the cloud student email, backup and recovery in the amount of \$39,550.00.
