Subject: LanSchool Renewal

[Policy 4:60 Purchasing and Contracts](#)

All District 303 schools, except Richmond Intermediate, currently use LanSchool Classroom Management Software. (LanSchool's feature set is somewhat limited when used with iPad devices, which are used by Richmond's students.) The three-year district-wide license for LanSchool that we have in place was purchased in 2013 for \$16,442. This license expires in May 2016.

Our recommendation is to renew the district-wide license for LanSchool Classroom Management Software for three years. A discounted price has been negotiated that includes the third year of district-wide licensing free of charge, provided the first two years of licensing is paid up front. This discount results in a savings of \$5,713.00.

In addition, with Richmond Intermediate School making the switch to Chromebooks for student use for the 2016-2017 school year, the district-wide license gives Richmond Intermediate staff the option to use the full featured LanSchool product as well.

It is our recommendation that the District renew the district-wide license for LanSchool Classroom Management Software for a total price of \$11,427.00.

Net Budget Impact:

Within ITS budget

Committee Recommendation:

To be determined.

Administration Recommendation:

Administration recommends that the Board of Education approve the LanSchool renewal in the amount of \$11,427.00
